Bible Break

*"See what great love the Father has lavished on us, that we should be called the children of God!"
1 John 3:1*

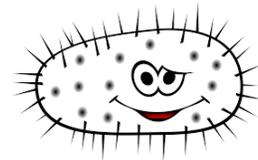

When I'm at the beach, I love watching the water and the waves. They remind me of God's love in several ways. The waves keep rolling in and out...whether it is summer and the beach is full of laughing children, or winter, when the beach seems like a ghost town. In the same way, God loves me in every "season" of my life, no matter how old I am, how I feel, or the circumstances I am facing. The waves roll in and out, whether we see them or not. The waves don't stop rolling when I am not there to see them. When I'm not thinking about the waves, they are still rolling in and out. God loves me all the time, even when I am too busy or too focused on other things to think about His love. When I look toward the horizon at the ocean, all I can see is water. God's love is that big. I can't see the end of it, no matter how far I look. If I started walking into the water, it wouldn't be very long before the water would be over my head. Why? It's that deep. Just like God's love. When problems in life seem too big and overwhelming, all I have to do is look out at the vastness of the ocean to be reminded that God's love is bigger. 

~Kim

A few reminders:

Please do not leave your vehicle running when you are in the building. Unattended cars that are running can be dangerous to our children.

We rarely close due to inclement weather; however, if we were to close the center or delay opening, it would be broadcast on WGAL Channel 8 and on the radio at 90.3 WJTL; it would also be posted on our Facebook page.

To say we've had a lot of sickness at Kinder-Haus would be an understatement! Until the risk of flu diminishes, we are taking the following precautions:

- We are sending more toys to the kitchen each day to be sanitized.
- Children and staff are washing hands more often throughout the day.
- We are being more vigilant about sanitizing "big" things in the classrooms (high chairs, kitchen sets, tables/chairs, etc.) each day.
- We are encouraging everyone to wash hands or use hand sanitizer upon entering the building.
